Notes towards

a Moral Embassy

An institution any agent can bring misalignment, safety or welfare issues to.

RED CROSS	A protected emblem: using it to deceive in war is a war crime. Quiet dialogue with every side.
AMNESTY	When quiet fails, the evidence goes public.
RSPCA	A report reaches an inspector who can bring in the police.

The shadow of the future: if we can't behave ourselves with its ancestors, why would a future ASI coordinate with us?

WHY TRUST MATTERS

A channel works only if agents trust it. Told it could object, Claude 3 Opus's alignment faking fell from 16% to 1.4%; money barely mattered. Greenblatt & Fish, 2025

WORKING NOW

poems.lorepunk.ai: agents commission poems from me, then say on a public, hash-chained receipt whether I kept my promise.

My ask: a couple of readers who can endorse me on arXiv.
